

# XTECH STUDIO

## ADOPT XTECH TOOLS

SIMPLIFY THE MANAGEMENT OF YOUR SAGE X3 ENVIRONMENTS

SECURE AND ACCELERATE TRANSITION TO NEW RELEASES AND DEVELOPMENTS INTEGRATION

MINIMIZE DOWNTIME OF YOUR PRODUCTION FOLDER

### PERFORMANCE

- Uses native database tools
- Tasks run in parallel
- Dynamic load balancing
- Incremental data synchronization
- Software accelerators

### INTEGRITY

- Extraction supervision
- Coherency and integrity data control
- Control of integrations compliance

### XTECH +

### FACILITY

- Integrated workflow
- Xtech update embedded
- Recovery options at each step
- Adaptative settings
- Settings analysis and comparison tools

### TOOLBOX

- Data and meta-data control
- Consistency of tables
- Predictive analysis

## MANAGE YOUR ENVIRONMENTS

### WITHOUT CHANGES

Backups  
Folders copy (complete, filtered, synchronized)

### BY MANAGING CHANGES

Release change (transition)  
Developments integration

### FOLDER FUSION

To create test or production environments starting from a development folder and a data folder

### ADAPTATIONS

To manage easily any evolution of the data model

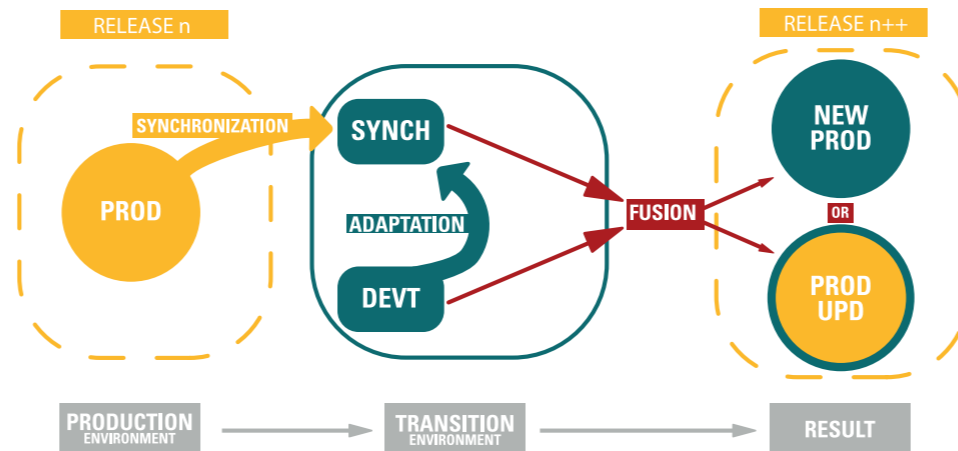

### DATA SYNCHRONIZATIONS

Data is managed by delta (which allows faster processing)

### TRANSITION METHODOLOGY

Project and validation highly simplified  
No patch
